

# ASPIRE

## Asian American Cohort Study

### We are seeking to enroll people who are:

- Asian or Asian American (including multiracial)
- Age 40–75
- Currently living in the US or US territories
- Not diagnosed with cancer

***Participants will receive up to \$25 for completing four surveys over 12 months. You may also receive \$10 if you are asked to donate a saliva sample (optional).***

# Did you know?

Cancer is the leading cause of death for most Asian American groups.

Asian Americans have high rates of liver, gastric, thyroid, and cervical cancers.

**But there is relatively little research on cancer in Asian Americans.**

***Please join us to help advance Asian American health across generations***
