

ASPIRE

Asian American Cohort Study

We are seeking to enroll people who are:

- Asian or Asian American (including multiracial)
- Age 40–75
- Currently living in the US or US territories
- Not diagnosed with cancer

Participants will receive up to \$25 for completing four surveys over 12 months. You may also receive \$10 if you are asked to donate a saliva sample (optional).

Did you know?

Cancer is the leading cause of death for most Asian American groups.

Asian Americans have high rates of liver, gastric, thyroid, and cervical cancers.

But there is relatively little research on cancer in Asian Americans.

Please join us to help advance Asian American health across generations
