

## Asian American Cohort Study

*Please join us to help advance  
Asian American health across generations*

**Scan code  
to join ASPIRE!**

### **We are seeking to enroll people who are:**

- Asian or Asian American (including multiracial)
- Age 40-75
- Currently living in the US or US territories
- Not diagnosed with cancer

**Participants will receive up to \$25 for completing four confidential surveys over 12 months.** You may also receive \$10 if you are asked to donate a saliva sample (optional).

*Learn more at our website:*

UC Irvine

UC DAVIS

Cedars Sinai

UCLA

## Did you know?

Cancer is the leading cause of death for most Asian American groups.

Asian Americans have high rates of liver, gastric, thyroid, and cervical cancers.

**But there is relatively little research on cancer in Asian Americans.**

***Be part of a historic nationwide effort to prevent cancer in Asian American communities!***
